

## Did You Know?

In the case of a planned foster parent adoption where there has been a placement disruption or the foster parent has changed their mind about adoption, the worker should change the foster parent adoption status in iTWIST.

To complete the update the following should occur:

- Open the child's case;
- Click on the Adoption Activity tab;
- Click the Permanency Planning tab;
- Click Edit/View on the Foster Parent Adoption and select "No" for the question "Is foster parent adoption planned?".

Updating this information improves accuracy of the data for the TWS-M202 SWIFT Adoption List as well as the permanency tracking phone calls with DPP central office.
