

Did You Know?

When a child/youth needs to be designated as medically fragile, the SSW contacts the regional medically fragile liaison for guidance and support. The DCBS SSW:

- Conducts a joint visit with the CCSHCN Nurse within thirty days of the child's placement and participates in creation of the individual health care plan.
- Visits the medically fragile child/youth at least 1 time per calendar month, in the placement setting including a DCBS resource home, a PCP foster home, a PCC residential placement or a supports for community living (SCL) program as determined by the child's needs; and
- Enters into TWIST that the CCSHCN nurse had face to face contact with the child as reported on his/her contact note.

For more information on medically fragile designation or visits, please visit [SOP 4.10.2](#) or [SOP 4.24](#).

"Did You Know?" is brought to you from the Division of Protection & Permanency.
